

Thanks for your email and for this opportunity. We are always open for Interns.

Personally, I have already worked with interns from Slovenia in the past and I was never disappointed, I know your standards.

At present, we can offer place for up to 6 interns at the same time since we have 4 SPA's in different localities in Malta. Ideally they come for not less than 3 months (or more) since we do invest in a lot of time in training them, and they can then really leave our SPA's ready to work anywhere in the world.

What we normally offer to our Interns is,:

- possibility to stay in our shared accommodation at a minimum monthly fee (if space is available)
- Lunch and Dinner during their time at work; and uniforms.
- We also give them commission on any retail products.

If you have any English Speaking students, interested in joining us, I would gladly make an appointment to speak with them over Skype and we can take it from there.

Thanks again, and I look forward for your feedback.

Kind Regards

Lorna

PS: By the way, I was in your country last December and it is lovely!
