

TOURISM - INTERNSHIP IN THE AZORES

Right in the middle of the Atlantic Ocean, mid-way between Europe and the United States, Mother Nature created an archipelago of nine islands that boast some of the most beautiful landscapes, flora, and marine life in the world – The Azores.

The Azores has pretty much everything you could wish in a tourism destination, from beaches and lakes nestled in volcanic craters, to entertainment and delicious food.

Safe, affordable and fascinating, the perfect place to do an internship and make connections for the future, while having an adventure!

During 2 to 4 months, in the Island of São Miguel, students will have the opportunity to acquire new skills, gain hands-on work experience, and learn a foreign language.

With the Azores Government support, each student will have:

- A dedicated Tourism Board Person;
- Courtesy transfers from and to the airport, on arrival and departure dates;
- Total accommodation support;
- One free daily meal, provided where the internship takes place;
- One immersive nature experience (Whale Watching).

Internship period between April and September 2020

Submit your application until the **29th of February**!!
